

### **a simple regen radio pdf**

The combination of the very low operating power of this stage, only 30  $\mu\text{W}$ , with the use of a simple whip antenna makes this receiver easily portable and prevents it from interfering with other receivers located nearby. Regenerative receivers are, after all, oscillators.

### **A Simple Regen Radio for Beginners - American Radio Relay**

A simple regen radio for beginners - Charles Kitchin, N1TEV. Its design is noncritical and the receiver is easy to get going. With it, you can receive dozens of international shortwave broadcast stations at night - even indoors - using a 39-inch whip antenna. This little radio is perfect for discovering ham-band QSOs, news, music and all the other things the shortwave bands have to offer.

### **Radio receivers: A simple regen radio for beginners**

Some readers have been asking for a more detailed circuit explanation for my beginner's regen radio project in the Sept 2000 issue of QST. This should answer most reader inquiries. A Detailed Circuit Description for "A Simple Regen Radio For Beginners" Project in the September 2000 Issue of QST.

### **A Simple Regen Radio for Beginners Notes - arri.org**

So the collector voltage must be kept at a fixed voltage by means of a low impedance voltage stabilisator like it is done in the schematic of the Charles Kitchin's "A Simple Regen Radio for Beginners".

80m or 40m Simple Regenerative Receiver. DESIGN. L1 is a small T50-2 (red) toroid with around 18-20 turns (40m) or 35-40t (80m) on the main winding connected to the FET with a single turn coupling loop for the antenna connection. The tap is about 20% up the main winding.

### **80m or 40m Simple Regenerative Receiver - Hamshop.cz**

DrM wrote: The regenerative stage consisting of a differential pair is very easy to build and has a smooth regen control. An advantage of this design is that you don't have to worry about the right place for the coil tap of Hartley regen, or the right amount of tickler coils in an Armstrong regen or the right ratio of the capacitive voltage divider chain in a Colpitts regen.

A Simple Regenerative VLF-LF Receiver by Lloyd Butler VK5BR (Originally published in "Amateur Radio", January, 1992 ) Introduction In an earlier issue of of Amateur Radio, I described a superheterodyne receiver for the VLF-LF bands, This was followed by a series of articles on front end tuning and loop aerials for these bands.

In addition to the scanned .JPG, I have also included .PDF versions of both the Battery Regen and the AC Regen. These receivers are shown in the "Circuits" sections of RCA Receiving Tube Manuals, RC-14, RC-15, and RC-16, and possibly others. 6) The 12AT7 Regen. Here is a copy of an article from an old electronics magazine.

Chapter 13 BUILDING A HOMEBREW HF RECEIVER The Vanishing Art The 1986 ARRL Amateur Radio Handbook reported that hardly anyone was building homebrew ham receivers. Since then, handbooks have had fewer and fewer practical details on ... regenerative receiver that was great fun to build and quite good for listening to foreign short

### **Chapter 13 BUILDING A HOMEBREW HF RECEIVER - QRP ARCI**

The base of TR1 is ac-ground- ed at radio frequencies by capacitor C5; and R1, C3 and C4 decouple the stage from the supply. Blocking capacitor, C2, prevents the grounding of TR1 emitter when aerials are connected to the receiver via a balun transformer and coaxial cable.

### **www.epemag3.com**

The radio currently tunes 7-11MHz. The basic paradigm of this design is to break up the traditional oscillating detector into a separated regenerative amplifier and detector circuit.

### **A High Performance Regenerative Radio | Circuit Salad**

For the radio experimenter it is a very practical outfit. In building this portable, the ... 1T4 r.f. pentode is used as a regenerative screen grid detector and a 1S4 as a power output pentode. This arrangement affords quite a healthy wallop in the earphones. Extreme ...
