The law or principle of comparative advantage holds that under free trade, an agent will produce more of and consume less of a good for which they have a comparative advantage. Comparative advantage is the economic reality describing the work gains from trade for individuals, firms, or nations, which arise from differences in their factor endowments or technological progress.

Languages are a fundamental aspect of people's lives and the democratic functioning of society. In response to the needs identified in or by its member states, the Council of Europe has been working over the past few decades to compile a set of resources made available to education authorities and professionals and benefiting all Europe's citizens (see milestones).
