Journal of the American Chemical Society (ACS Publications)

Explore what makes a reaction happen by colliding atoms and molecules. Design experiments with different reactions, concentrations, and temperatures. When are reactions reversible? What affects the rate of a reaction?

Reactions & Rates - Reaction | Kinematics | Concentration

The purpose of this page is to provide resources in the rapidly growing area computer simulation. This site provides a web-enhanced course on computer systems modelling and simulation, providing modelling tools for simulating complex man-made systems. Topics covered include statistics and probability for simulation, techniques for sensitivity estimation, goal-seeking and optimization ...

Modeling and Simulation - ubalt.edu

Simulation software is based on the process of modeling a real phenomenon with a set of mathematical formulas. It is, essentially, a program that allows the user to observe an operation through simulation without actually performing that operation.

Simulation software - Wikipedia

Process Control and Instrumentation online training, tutorials and information - Learn all the basics, theory and practical application of industrial systems and devices. Instrumentation, Process Control and Industrial Automation Training.

Process Control and Instrumentation - Industrial

Process integration is a term in chemical engineering which has two possible meanings.. A holistic approach to process design which emphasizes the unity of the process and considers the interactions between different unit operations from the outset, rather than optimising them separately. This can also be called integrated process design or process synthesis.
