People ask me what books I recommend to learn Java. And I have a few books that I thoroughly recommend, but they are not aimed at beginners. Those that are aimed at beginners, I re-read recently and came to the conclusion that they would confuse more than help, and they don't help people become productive fast.

Java For Testers by Alan Richardson [Leanpub PDF/iPad/Kindle]

My second article addressed setting up the chart of accounts in a nonprofit environment. The third article dealt with setting up and using the Customer/Jobs and Classes utilities in QuickBooks to assist nonprofit organizations in reporting by funding source and program. In this article, we'll cover the final two steps – coding transactions using the QuickBooks Customer/Jobs and Classes ...
