The labor theory of value (LTV) is a normative classical theory of value that argues that the price of a good or service should be (morally) equal to the total amount of labor value (wages) required to produce it. Smith and other classical economists saw the price of a commodity in terms of the labor that the purchaser must expend to buy it. Marx later modified this normative (moral) theory of ...

A value network is a business analysis perspective that describes social and technical resources within and between businesses. The nodes in a value network represent people (or roles). The nodes are connected by interactions that represent tangible and intangible deliverables. These deliverables take the form of knowledge or other intangibles and/or financial value.

tonal value. Lightness, which artists traditionally refer to as value or tonal value, is the light or dark of a color independent of its chromaticity (hue and chroma).. Given all the space devoted to hue in color theory, it is surprising to learn that value is the most important design element of a painting. It is hard to overstate the importance of good value structure to the impact of visual art.
