Creating Visual Effects in JavaFX: Applying Blur Effects

Types of motif. A motif may be an element in the iconography of a particular subject or type of subject that is seen in other works, or may form the main subject, as the Master of Animals motif in ancient art typically does. The related motif of confronted animals is often seen alone, but may also be repeated, for example in Byzantine silk and other ancient textiles.

In computing, a visual programming language (VPL) is any programming language that lets users create programs by manipulating program elements graphically rather than by specifying them textually. A VPL allows programming with visual expressions, spatial arrangements of text and graphic symbols, used either as elements of syntax or secondary notation. For example, many VPLs (known as dataflow ...

Create an engaging presentation (in PowerPoint, Keynote, or any other presentation software), to better reach your audience and emphasize your message.

Designing a Presentation

Taking sound design beyond basically filling in appropriate sound effects takes a lot of thought and labor.

David Sonnenschien's simply named "Sound Design" is a treasure trove of ideas for crafting better sound for cinematic storytelling.
