

cyberlaw text and cases pdf

Information technology law (also called "cyberlaw") concerns the law of information technology, including computing and the internet. It is related to legal informatics, and governs the digital dissemination of both (digitalized) information and software, information security and electronic commerce. aspects and it has been described as "paper laws" for a "paperless environment".

IT law - Wikipedia

Case law is a set of past rulings by tribunals that meet their respective jurisdictions' rules to be cited as precedent. These interpretations are distinguished from statutory law, which are the statutes and codes enacted by legislative bodies, and regulatory law, which are regulations established by executive agencies based on statutes. The term "case law" is applied to any set of previous ...
