WORKSHOP OVERVIEW This CPD workshop is aimed at attendees from new graduate to advanced Occupational Therapists and Physiotherapists. Research shows that the most effective way to teach motor skills (such as handwriting) is by using an individualised executive problem solving approach based around goals.

Cognitive Orientation to Daily Occupational Performance

If you follow my blog, you know that I think preschoolers should start with many different hands-on ways to write the alphabet. They can create a letter with small manipulatives, write it with a finger in food or shaving cream, and have many other creative experiences. Eventually, though, it's time to move to pencil and paper -- or at our house, marker and paper.
