Data reporting often leverages these trends, producing interactive applications that engage audiences. Data journalism also benefits from broader trends in collaboration as a primary mode of work. It requires a range of skills, and is best performed by a diverse team including journalists, data analysts, designers, and programmers.

Understanding Data - Internews

Data journalism is an effective way to capture complicated information into an engaging infographic-style visualization that audiences can immediately grasp. Data by itself is just a collection of numbers, but data journalism is the process of investigating, understanding and shaping that data to tell compelling stories.

Data Journalism Playbook - news.microsoft.com

provides a slew of additional books, guides and video resources of aspects of data journalism. â€¢ Data-Driven Journalism offers a collection of resources for computer-assisted reporters. â€¢ Periodismo de Base de Datos provides tutorials and resources on data journalism for Spanish-speaking reporters.

their own solutions: a fifth of data journalists use in-house tools and software. â€œ For some newsrooms, there is an unclear return on investment as the production of data journalism can take significant time and resources. Despite these challenges, data journalism in 2017 has become more mainstream than at any other time in its history.
