The scientific debate goes back to the mid-19th century (e.g., Galton, 1869; Nott & Glidden, 1854). Starting with the widespread use of standardized mental tests in World War I, average ethnic and racial group differences were found. Especially vexing has been the cause(s) of the 15-point Black White IQ difference in the United States.

all, this book should help you to make debating fun. This is a book to make debating as simple as possible. Many people imagine that debating becomes more complicated and more abstract as debaters develop. It should not. Instead, even if topics become more abstract and the subject matter more technical, the debating itself should become simpler.

Gender Equality and Equity 3 "The time is past when a women's movement had to exclude men in the fight 'against' patriarchy. The time has come rather for women's visions to restructure and redefine work in order to

fashion a new society for women and men based on women's experience and skills as care-givers and reproducers.
