As a military family, we move around a lot, which means we need furniture that can easily be assembled and disassembled. After a bit of searching online, I found these metal bed rail brackets and they were a dream to install. You just screw them into the wood and the two pieces hook into each other.

We co-slept with both of our boys, and plan to do the same with our baby girl. With the boys, I just put a toddler bed rail up on the side of my bed to prevent them from falling off, but the bed rails are so unattractive, and I really don't want to put one on my bed again, since I just finished decorating our master bedroom.

It's time for me to start a new diy aeroponics project. Recently I added a new grow room so I needed a new system. I have been growing with my homemade aeroponics diy system for a couple of years now and it works very well. But I decided to take what I have learned and build a new system for both my grow rooms.
