With Robotic Process Automation, you can easily automate such repetitive tasks in a given business process. Referring to the example of Invoice Processing, RPA can read emails, download and read PDF's, maintain data in Excel sheets, update backend ERP systems, while approvals and quality checks remain manual as they need specialized skills, judgement and knowledge.

Attachment theory is a psychological model attempting to describe the dynamics of long-term and short-term interpersonal relationships between humans. "Attachment theory is not formulated as a general theory of relationships; it addresses only a specific facet": how human beings respond within relationships when hurt, separated from loved ones, or perceiving a threat.
