Session Six Overview Making Meaning for Operations

The Making Meaning for Operations Casebook was developed as the key resource for participants'™ Developing Mathematical Ideas seminar experience. The twenty-nine cases, written by teachers describing real situations and actual student thinking in their classrooms, provide the basis of each session's™ investigation of specific mathematical concepts and teaching strategies.

Number and Operations, Part 2: Making Meaning for

Making Meaning Operations Developing Mathematical Making Meaning for Operations is the second module in the seven-part Developing Mathematical Ideas Series. It consists of a casebook (sold separately) and this online facilitator's™ package that contains everything necessary to prepare for and lead the seminar,
