The normal function of the urinary bladder is to store and expel urine in a coordinated, controlled fashion. This coordinated activity is regulated by the central and peripheral nervous systems. [] Neurogenic bladder is a term applied to urinary bladder malfunction due to neurologic dysfunction emanating from internal or external trauma, disease, or injury.

Neurogenic Bladder: Overview, Neuroanatomy, Physiology and

INTRODUCTION. The postpartum period, also known as the puerperium, refers to the time after delivery when maternal physiological changes related to pregnancy return to the nonpregnant state.
