## Science In The Bedroom A History Of Sex Research

science requires measuring (temperature, speed, time), which involves math. To put it another way, scientists need math to talk about what they do. In integrating math and science concepts in the classroom, we need to make sure our objectives are measurable and rooted in the skills we want to teach children.

#### Review of: Science in the Bedroom: A History of Sex Research

Bullough provides descriptions and evaluations of hundreds of specific studies, but he does not have much interest in the kind of sociology of knowledge developed by such historians of science as Robert E. Kohler. Rather, his story is a positivist chronicle of the struggle for progress against ignorance and fear.
