Solutions | Bourque Logistics

A smart meter is an electronic device that records consumption of electric energy and communicates the information to the electricity supplier for monitoring and billing. Smart meters typically record energy hourly or more frequently, and report at least daily. Smart meters enable two-way communication between the meter and the central system.

The cost to replace a failed transmission torque converter clutch solenoid is determined, in part, by the vehicle year, make and model. Other factors, such as where the work is done (whether at a local auto repair shop, car dealership or you do-it-yourself) also factors heavily into the cost of repair.

Smart Meters are actually Stupid Meters. Why? Because they overcharge you, broadcast your personal info and detailed energy use habits, damage your DNA, harm wildlife, catch fire, and disable your shock prevention devices. They also emit wireless microwave radiation that can cause cancer and kill you. Need more reasons than that? Go to our Why Stop Smart Meters page.
