Sociological theory vs. social theory. Kenneth Allan proposed the distinction between sociological theory and social theory. In Allan's usage, sociological theory consists of abstract and testable propositions about society. It often heavily relies on the scientific method, which aims for objectivity, and attempts to avoid passing value judgments. In contrast, social theory, according to Allan ...

Authority has been considered in sociological terms as indicating the legitimate or socially approved use of power. It is the legitimate power which one person or a group holds and exercises over another. The element of legitimacy is vital to the notion of authority and is the main means by which authority is distinguished from the more general concept of power.
